Custom enterprise AI solutions

Built around your requirements, data and existing systems.

Define requirements — Validate in a pilot — Integrate systems

Explore custom solutions ↗

Custom AI capabilities ↗ 12

- Generative AI, agents and RAG ↗
- Process automation and RPA ↗
- Data engineering and big data ↗
- Traffic and mobility analytics ↗
- Business analysis and decision intelligence ↗
- Human resources analytics ↗
- Predictive maintenance ↗
- Internal audit intelligence ↗
- Fraud detection ↗
- Data and AI governance ↗
- Sentiment analysis ↗
- Custom AI development ↗

Ready AI products ↗ 5

- AI-Powered Chatbot ↗
- OCR Documents Digitization ↗
- SmartVision Analytic ↗
- Smart E-Commerce App ↗
- DataFlow Migrateware ↗

SafeACS hardware ↗ 3

- Access control ↗
- Attendance monitoring ↗
- Thermal detection ↗

Industry solutions ↗ 7

- Construction ↗
- Manufacturing ↗
- Supply chain ↗
- Call centers and customer experience ↗
- Financial services ↗
- Telecommunications ↗
- Government and smart cities ↗
